SIXTH CLUB RACE. -Course:-From the S.M. pier, Wellington Barracks, round a mark boat off Chunghue, the west minefield buoy, back to the Chunghue mark, and from thence to the starting line. There was a fine brovze at eleven o'clock and the first class went away at a great pace. Dari made a very elever start and was a good deal ahord when the gun went, the other boats being so newhat poorly handled. Petrel indeed got mixed up with jibs and spinnakers.

and it was some minutes before she could ret away. Payne, Stella and Ladybird crossed the line abreast of one another, and after luffing out for the middle of the harbour sent un spinnakers to starboard. It was a dead run to the Chunghue boat, and Paune as usual went the fastest to le-ward. Stella and Ladybird rounded close together and Dark a second or so after them; the Petrel not having been able to pick up her loss of time at the start was still some minutes astern. A short trip to windward brought the boats to the minefield busy and Dart came up on Payne, but although the R.B.'s from off his weather bow and the Paune got round the buoy a leader by about a minute Stella and Ladubird had dropped a bit astern but were still close together and Petrel was yet whipper in. Again on the run Paune was the fastest. and when hanting round the Chunghue mark the second time had a good lead. From her to the winning line it was steady, windward ! work, and at first there was a slight leave of sen in which Payno could hold her own against Dart, but as the harbour was heare the LIII, boat crept up and steadily gained on the leader. After leaving the Kowloon side, on the last leg across the wind was very light, and Dart passed into first place and scored another win. Petrel, who had been gaining on the others all day, at last got the better of Ladubird and Stella, although the lat

ter at one time looked like being well up at the inish. But the light airs at the end of the race did not suit her at all and she was just beaten by -Ladybird. The times at the finish were :-Petrel 1 53 20 Ladybird 1 56 25 Stella ...... 1 57 20 Score :-Payne 29
Petrel 11 7 11 4 4 th 154 446 44 . 416 111 446 **446** 487 47 707 777 777

sociated with Mr. Belilies in this charitable and is regarded as an inferior being in most ranks In the second class there was a new comer benevolent undertaking. Hob. W. M. Goodman. Attorney-General pectations with which it was launched. instructed by Mr. A. B. Johnson, Crown Solivitor, prosecuted on behalf of the Crown.

The prisoner was undefended. The following jury was empaunelled: -Messrs J. dos Remedios, C. F. Mandham, P. A. dos Remedios, Wm. Gardner, D. Clark, J. Ribiero, and 🐧 C. Corveth. The Attorney General in opening the case

said that the facts were briefly these. On the night of the 16th Navember four men, of whom the prisoner was one, went on board a sampan at bery: Yanmati and ordered the woman and her daughter to row them to Taikekshui. On the way thither an attack was made on the defenceless females and under the threat of drawn daggers a gold ring and \$10 were taken from them. The police afterwards arrested the prisoner, who on being charged at the Central Station made a statement in which he did not deny that he was one of the party, and confessed that he took a piece of rone to tie the hands of one of the women, because, as he said, he was afraid she would jump overboard. The evidence having been taken, the prisoner

made a statement substantially the same as that made before the Inspector at the Central Station. His Lordship having sammed up, the jury immediately returned a verdict of guilty on both Sentence was deferred until this morning.

CONSOCATION CUP, value \$100; second nony to receive \$25; for all beat n ponies that have run and not won a ruce at this meeting; weights as per scale; entrange \$5. One mile. CHAMPION STAKES; a forc d entry of \$10 each \_for all winners at this meeting except. Nil-Degreerandom Stakes; winners of two races \$15 extra, of more than two rac a \$30 extra: non-winners excluded; weights as per scale. One mile and a quarter. NIL DESPERANDUM STAKES; of \$5 each, with

- \$50 added; second pany to receive \$25; for all beaten Amoy subscription griffins of this season; weights as per scale. Once round and a distance.

A DUTY ON SILVER.

A Hyderabad correspondent of the Bombay Gazette mentions that a duty of five nor cout. is being levied by the authorities of that State on imported silver. The State of Jodhpur has also imposed a duty on that metal, amounting to seven and-a-half per cent. The Mints of the native States are coining silver the aggregate amount of a lakh a day. Some three crores of hearded silver are believed to have found their way back into circulation since the closing of the Imperial Mints, chiefly in payment for on equivalent amount of imported silver. The imports have at present practically ceased, but the fact that the rupes has now a higher value than an equal weight of silver will tend to bring out more of the hearded coin. Hitherto the people of India have put by some dive or six ereres of rupees per annum. Since the closure of the mints this process has been rerersed, and the rapees are coming into circulation. It is certain that a very large amount of ompany's rupses of the earlier years of Her Majesty's reign have found their way into general circulation. For the most part they appear just as if they were newly issued from the Mints bearing no sign of wear or usage. Owing to the considerable amount of hoarded money which has come into the market it is not ex-

Dispatches from the Congo Free State have brought the details of the victories of Captain Dhaniss over the Arabs at Nyangive and Kasongo some months ago. The Arabs had intrapched themselves along the Congo, and outnumbered the Belgians 20 to 1. Nevertheless, after a bloody fight the Belgians carried the Arab positions. Many Arabs were killed and Humidity ...... wounded and 8,000 were taken prisoners. The Direction of wind ... fugitive Arabs tried to cross the Lunlabea river some distance southeast of Nyangive. Hundreds were drowned and the rest retreated in all

Letters found upon prisoners showed that the Arabs had planued to expel the Europeans from the whole Congo region. Captain Pouthier, Mr. Labouchere retorted that it was scanda- after capturing Kibanda, half way between lous for Sir J. Fergusson to support a bankrupt | Stanley falls and Ribariba, drove the Arabs across the country. The Europeans made thousands of prisoners and seized 1200 rifles.

Among the prisoners were twenty-five Arab chiefs, one of them Abibo Ben, who killed Emin Pasha in October, 1892, in the northeastern part of the Congo Free State. The murderer was court-martialled soon after having been identified. The story of Emin's death, as reported last September, is confirmed by the dispatches received. The only survivors were the Zanzibarite, his mistress, and their child, Monsonna. Secretary for Ireland, is at present protected by The Arabs spared the boy in the expectation that if endowed with his father's brains and

energy be might be trained to be a great leader; All of Emin's latest papers were received to-day and were delivered to King Leopold. The leaders of the Belgians in the Congo Free State say that nearly all the children of the Arab chief-UP NELSON'S COLUMN AT MONTREAL. MONTREAL 20th November.

BANKERS.

THE HONGKONG AND SHANGHAI BANKING CORPORATION.

LEGAL ADVISER. HENRY CHARLES LITCHFIELD.

......OFFICES: HONGKONG AND YOKOHAMA.

THE object of the Company is to form and maintain a Factory in Yokohama for the

Manufacture of Watches of all kinds and de-For this purpose it is proposed to purchase a ite within the limits of the Foreign Settlement of Yokohama and thereon to erect the Factory. The founders of the Company ere possessed of a plant of machinery complete in every 1439 particular, of the newest design and the finest workmanship, and adapted for the making of all

implements used in the watch trade, as well as the making of watches. It is well known that machinery has effected a complete revolution in the watch trade, and it is confidently expected that by availing itself of the comparatively cheap labour of this country this Company will be able to supply the trade in all parts of the world with an article which for excellence of workmanship and cheapness of price will defycompetition.

Mr. P. H. Wheeler, the Superintendent of the Company, has been for many years engaged in developing watch making machinery, and the testimonials from his former employers testify to his business ability, skill, and integrity. The machinery of which the founders are possessed has been perfected under his superintendence; and a considerable part thereof is of his invention.

. Besides the machinery the founders are possessed of ten thousand watches in various stages of completion which are the out-turn of the said machinery, and material on hand sufficient to turn out about twenty-five thousan 1 more. It will thus be seen that it is not an untried plant which the founders have acquired, but one which has already given proof of its excellence. It was only the advantage of obtaining a cheaper labour market than can be found in the United States that has induced them to work the business in

It is an established fact that the principal factories in the United States in seven years paid 300 per cent. dividend on a capital of Six can be ascertained on application. Million Dollars; and that was done on a wage Every description of Banking and Exchange basis of \$1.50 (gold) per operative, the factories business transacted. employing six thousand bands. If the difference in the rate of labour in this country is taken into consideration the operations of the Company will be assured to realize to the full the expectations

of the founders. The profits of watch making are based entirely on the price of labour. It is not in the labour market only that an advantage will be obtained. Coal and other materials can be purchased in this country at a lower rate than in the United States. And besides all these advantages, which are great, 291 there is one of still greater importance, the knowledge to be obtained of the requirements of the local trade, of the trade for China, and that of "The Straits" and India. The Company will be capable of supplying a watch of the best workmanship to the population of these large and important countries at a price far below any wat oh of like character that has ever been offered

Taking into consideration these advantages the founders confidently expect to pay a dividend of at least 10 per cent. per annum on the first two years' work and thereafter dividends at a much higher rate. The Company has been registered in Hong-

kong as a Limited Company. machinery, plant, and stock and their labour and experience in preparing and procuring the machinery and stock. Ten thousand shares of twenty-five yen each

are offered for subscription. The memorandum and articles of association of the Company may be inspected at the offices of the Company, No. 10, Rund, Yokohama. Applications for shares should be made on forms annexed to the Prospectus, and should be forwarded to the Hongkong and Shanghai Bank ing Corporation, accompanied by a remittance

for the amount of the deposit. Form of Application for Shares will be sent free to any person by addressing the HEAD OFFICE, 10, BUND, YOKOHAMA. Yokohama, Japan.
